

Gandhinagar Institute of Nursing

Academic Regulation& Curriculum

For P.B.B.Sc. Nursing

P.B.B.Sc. Nursing

w.e.f. 2026-27

INTRODUCTION OF THE PROGRAM

Nursing encompasses autonomous and collaborative care of individuals of all ages, families, groups and communities, sick or well and in all settings. Nursing includes the promotion of health, prevention of illness, and the care of ill, disabled and dying people. Advocacy, promotion of a safe environment, research, participation in shaping health policy and in patient and health systems management, and education are also key nursing roles. The authority for the practice of nursing is based upon a social contract that delineates professional rights and responsibilities as well as mechanisms for public accountability. In almost all countries, nursing practice is defined and governed by law, and entrance to the profession is regulated at national or state level. The aim of the nursing community worldwide is for its professionals to ensure quality care for all, while maintaining their credentials, code of ethics, standards, and competencies, and continuing their education. There are a number of educational paths to becoming a professional nurse, which vary greatly worldwide, but all involve extensive study of nursing theory and practice and training in clinical skills. Nurses care for individuals who are healthy and ill, of all ages and cultural backgrounds, and who have physical, emotional, psychological, intellectual, social, and spiritual needs. The profession combines physical science, social science, nursing theory, and technology in caring for those individuals. The role of the nurse is evolving, as the mode of delivery of health care services has undergone major changes both locally and internationally in the past decades. In line with international trends, we are developing a health care system that provides lifelong holistic care, promotes health, enhances the quality of life and enables human development. The availability of qualified and competent health care professional is the key to the delivery of quality health care services. As nurses play a pivotal role in the promotion, maintenance and restoration of health, we need to develop competent nurses who are able to take up extended and expanded roles in the delivery of primary, secondary and tertiary care. Thus, apart from the roles of a caregiver, the nurse needs to develop competence to take up the roles of health promoter, educator, counselor, care coordinator, case manager, researcher as well as that the students acquires the essential competence that enables them to fulfill these roles competently and ethically.

Table of Contents

Sr no	Content	Page no

	Annexure – II Scope & Career Opportunities	92

1. INSTITUTIONAL VISION & MISSION

1.1 Vision:

Contribute to the societal environment through quality education, innovation, and value augmentation in the area of Management Education.

1.2 Mission:

- To build a competitive edge among students with a strong foundation of management concepts, enabling them to excel and shape their careers.
- To create academic excellence by fostering a stimulating learning environment aligned with the global economy, nurturing corporate leaders and entrepreneurs.
- To strengthen industry collaboration through project-based learning, internships, and placements.

2. PHILOSOPHY

We believe the philosophy of Indian nursing council: Health is a state of well-being that enables a person to lead a psychologically, socially and economically productive life. Health is not a privilege but a right of all the people. Individuals, families and communities have a responsibility towards maintaining their health. Nursing contributes to the health services in a vital and significant way in the health care delivery system. It recognizes national health goals and is committed to participate in the implementation of National Health policies and programmes

. It aims at identifying health needs of the people, planning and providing quality care in collaboration with other health professionals and community groups. Scope of nursing practice encompasses provision of promotive, preventive, curative and rehabilitative aspects of care to people across their life span in wide variety of health care settings. Practice of nursing is based upon application of basic concepts and principles derived from the physical, biological, behavioral sciences. Nursing is based on values of caring, and aims to help individuals to attain independence in self-care. It necessitates development of compassion and understanding of human behavior among its practitioners to provide care with respect and dignity and protect the rights of individuals & groups. Undergraduate nursing program at the post basic level is a broad based education within an academic framework, which builds upon the skills and competencies acquired at the diploma level. It is specifically directed to the upgrading of critical thinking skills, competencies & standards required for practice of professional nursing and midwifery as envisaged in National Health Policy 2002. The teachers have the responsibility to be role models and create learning environment that enables students to acquire inquiry driven, self-directed learning and foster an attitude of lifelong learning. Under graduate nursing education program at the post basic level prepares its graduates to become exemplary citizen by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations so as to respond to national aspirations.

3. AIMS & OBJECTIVES

Aims

The aim of the undergraduate nursing program at the post basic level is to upgrade the diploma (GNM) nurses to:

- assume responsibilities as professional, competent nurses and midwives at basic level in Providing promotive, preventive, curative, and rehabilitative services.
- make independent decisions in nursing situations, protect the rights of and facilitate Individuals and groups in pursuit of health, function in the hospital, community nursing services, And conduct research studies in the areas of nursing practice. They are also expected to assume The role of teacher, supervisor, and manager in clinical/public health settings.

Objectives

On completion of B.Sc. Nursing (Post-Basic) degree programme the graduates will be able to:

1. Assess health status, identify nursing needs, plan, implement and evaluate nursing care for Patients/clients that contribute to health of individuals, families and communities.
2. Demonstrate competency in techniques of nursing based on concepts and principles from Selected areas of nursing, physical, biological and behavioral sciences.
3. Participate as members of health team in the promotive, preventive, curative and restorative Health care delivery system of the country.
4. Demonstrate skills in communication and interpersonal relationship.
5. Demonstrate leadership qualities and decision-making abilities in various situations.
6. Demonstrate skills in teaching to individuals and groups in community health settings.
7. Demonstrate managerial skills in community health settings.
8. Practice ethical values in their personal and professional life.
9. Participate in research activities and utilize research findings in improving nursing practice.
10. Recognize-the need for continued learning for their personal and professional development.

4. ADMISSION TERMS & CONDITION

Eligibility for Admission

1. The candidate must have passed Higher Secondary (10+2) / Senior Secondary / Intermediate examination or an equivalent examination recognized by the concerned University.
2. Candidates who have completed 10+1 or equivalent before 1986 are also eligible for admission.
3. The candidate must have successfully completed the General Nursing and Midwifery (GNM) programme from an institution recognized by the Indian Nursing Council (INC).
4. The candidate must be registered as a Registered Nurse and Registered Midwife (R.N.R.M.) with the respective State Nursing Registration Council.

Eligibility for Male Candidates

Male nurses trained before the implementation of the integrated GNM programme must submit evidence of INC-approved training in lieu of Midwifery in any one of the following areas:

- O.T. Techniques
- Ophthalmic Nursing
- Leprosy Nursing
- TB Nursing
- Psychiatric Nursing
- Neurological & Neurosurgical Nursing
- Community Health Nursing
- Cancer Nursing
- Orthopedic Nursing

Medical Fitness

The candidate must be medically fit and submit a medical fitness certificate issued by a registered medical practitioner at the time of admission.

Admission Procedure

1. Admission shall be granted strictly on merit and/or as per the admission policy of the University, State Government, and regulatory authorities.
2. The candidate must submit all original documents at the time of admission.
3. Admission shall remain provisional until verification of all certificates and documents.
4. Any false information or forged document will result in immediate cancellation of admission

5. CURRICULUM WITH CREDIT STRUCTURE

I Year

Sl.No	Subject	Hours	
		Theory	Practical
1	Nursing Foundation	45	-
2	Nutrition & Dietetics	30	15
3	Biochemistry & Biophysics	60	-
4	Psychology	60	15
5	Maternal Nursing	60	240
6	Child Health Nursing	60	240
7	Microbiology	60	30
8	Medical & Surgical Nursing	90	270
9	English (Qualifying)	60	-
	Total	525	810

II Year

Sl.No	Subject	Hours	
		Theory	Practical
1	Sociology	60	-
2	Community Health Nursing	60	240
3	Mental Health Nursing	60	240
4	Introduction to Nursing Education	60	75
5	Introduction to Nursing Administration	60	180
6	Introduction to Nursing Research & Statistics	45	120
	Total	345	855

6. SCHEME OF EXAMINATION

Sl.No	Subject	Hours	Internal		External		Total	
			Min	Max	Min	Max	Min	Max

13	Introduction to Nursing Education	3	12	25	38	75	50	100
14	Introduction to Nursing Administration	3	12	25	38	75	50	100
15	Introduction to Nursing Research & Statistics**	2	25	50	-	-	25	50
Practicals								
4	Community Health Nursing		25	50	25	50	50	100
5	Mental Health Nursing		25	50	25	50	50	100
6	Research Project**		25	50	-	-	25	50

Note : ** College Examination (Not University exam)

1. A minimum of 85% attendance in Theory and 90% of attendance in Practical in each subject is essential for appearing in the examination.
2. 100% attendance in practical / clinical in each clinical area is essential before award of degree.
3. 50% of minimum marks in each theory and practical paper separately is required for passing. A candidate has to secure minimum of 33% in English subject for passing.

7. EXAMINATION REGULATIONS

Essentialities for qualifying to appear for professional examinations.

The performance is essential components of training are to be assessed, based on:

1. Attendance

85% of attendance in a subject for appearing in the examination is compulsory inclusive of attendance in non-lecture teaching. i.e. seminars, group discussions, demonstrations, practical, hospital (Tertiary, Secondary, Primary) postings and bed side clinics, etc.,

For appearing at the University Examination, student should have 85% attendance in each subject in theory and 90% attendance in practical. Even if shortage is seen in one subject, he/she will be detained for the entire examination. Students cannot appear separately for the individual subjects during the first appearance at the professional examination

2. Internal Assessment

a. It shall be based on day to day assessment, evaluation of student assignment, preparation for Seminar, clinical case presentation etc.

b. Regular periodical examinations shall be conducted throughout the course.

c. Day to day records should be given importance during internal assessment.

d. Weightage for the internal assessment shall be as given in the working sheet.

Student must secure at least 50% marks of the total marks fixed for internal assessment in a particular subject in order to be eligible to appear in final university examination of that subject

Note: Internal assessment shall relate to different ways in which student's participation in learning process during a year is evaluated. Some examples are as follows.

i. Preparation of subject for student's seminar.

ii. Preparation of a clinical case for discussion.

iii. Clinical case study / problem solving exercise.

iv. Participation in project for health care activities in the community(planning stage to evaluation)

Proficiency in carrying out a practical or a skill in small research project

No institution shall submit average internal marks of the total students more than 75%, (i.e.,) if 40 students are admitted in a course the average score of the 40 shall not exceed 75% of total internal marks

Records to be maintained for evaluation

❖ Procedure book/chart book/Log Book

❖ Assignment record

- ❖ Case study
- ❖ Care plans
- ❖ Subject record register
- ❖ Drug book
- ❖ Family care study
- ❖ Assessment forms

NURSING FOUNDATION

THEORY: 45hrs

COURSE DESCRIPTION: -

This course will help students to develop an understanding of the philosophy, objectives and responsibilities of nursing as a profession. The purpose of the course is to orient to the current concepts involved in the practice of nursing and developments in the nursing profession.

OBJECTIVES:

At the end of the course, the students will:

1. Identify professional aspects of nursing
2. Explain theories of nursing
3. Identify ethical aspects of nursing profession
4. Utilise steps of nursing process
5. Identify the role of the nurse in various levels of health services
6. Appreciate the significance of quality assurance in nursing.
7. Explain current trends in health and nursing

UNIT NO	HOURS	Learning Objective	COURSE CONTENTS	Teaching learning Activities	Assessment Method
Unit I	6 hrs	Explain concept & scope of nursing Describe values code of ethics & Professional conduct for nurses in india	Development of Nursing as a profession * Its philosophy * Objectives and responsibilities of a graduate nurse * Trends influencing nursing practice * Expanded role of the nurse * Development of nursing education in India and trends in nursing education * Professional organizations, career planning * Code of ethics & Professional conduct for nurse.	Lecture, discussion, chart, slides	Written Test; Objective and Essay Type.
Unit II	12 hrs	Describe the ethical legal issues in nursing Explain concept of health, illness effect on the individual Explain developmental concept, needs & roles of individual	Ethical, legal and other issues in nursing * Concepts of health and illness, effects on the person * Stress and adaptation * Health care concept and nursing care concept * Developmental concept, needs, roles and problems of the development stages of individual – newborn, infant, toddler, pre-adolescent, adolescent, adulthood, middle-age, old age.	Lecture, discussion, charts, slides & Demonstrations	Written Test; Objective and Essay Type.

Unit III	5hrs	Explain the theory of nursing practice Describe met paradigm of nursing	Theory of nursing practice * Meta paradigm of nursing – characterized by four central concepts i.e. nurse, person (client/patient), health and environment.	Lecture, discussion . Demonstration Practice session Clinical Practice	Written Test; Objective and Essay Type.
Unit IV	10 hrs	Explain the concepts, uses & steps of nursing process	Nursing process. * Assessment: Tools for assessment, methods, recording. * Planning: Techniques for planning care, types of care plans. * Implementation of care, recording. * Evaluation: Tools for evaluation, process of evaluation.	Lecture, discussion . Demonstration Practice session Clinical Practice	Written Test; Objective and Essay Type.
Unit V	4 hrs	Explain the value of quality assurance in nursing	Quality assurance: * nursing standards, nursing audit, total quality management. * Role of council and professional bodies in maintenance of standards.	Lecture, discussion . Demonstration, charts, slides .	Written Test; Objective and Essay Type.
Unit VI	4 hrs	Explain the current trends in health & nursing	Primary health care concept: * Community oriented nursing * Holistic nursing, Primary nursing * Family oriented nursing concept, Problem oriented nursing * Progressive patient care * Team nursing	Lecture, discussion ,	Written Test; Objective and Essay Type.
Unit VII	4 hrs	Explain biomedical waste management	Biomedical Waste Management	Field Visit, lecture & discussion	Written Test; Objective and Essay Type.

DISTRIBUTION OF TYPE OF QUESTION AND MARKS FOR THE SUBJECT NURSING FOUNDATION

Question No.	Question description	Division of marks	Total marks
1.	Total MCQs:- 5	5 x 1	5
2.	Long Answer Questions (LAQ) (Any1 out of 2)	1 x 10	10
3.	Short Notes (4 out of 6) a) b) c) d) e) f)	4x5	20

Note :

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 2 questions will be given out of which , 1 have to be answered.
3. Short Notes : 6 questions will be given out of which, 4 have to be answered.

NUTRITION AND DIETETICS

Placement :First Year

**Time Allotted: Theory -
30 hrs.
Practical -
25 hrs**

COURSE DESCRIPTION:-

This course is designed to provide the students with a wide knowledge of dietetics in Indian setting, that the practice of teaching optimum and realistic dietary planning can become an integral part of nursing practice.

OBJECTIVES:

At the end of the course, the student will

1. Explain the principles and practices of nutrition and dietetics.
2. Plan therapeutic diets in different settings.
3. Identify nutritional needs of different age groups and plan diet accordingly.
4. Prepare meals using different methods utilizing cookery rules.

UNIT NO	HOURS		Learning Objective	COURSE CONTENT	Teaching Learning Activities	Assessment
	T	P				
I	8Hrs		Explain the principles of nutrition & dietetics	Introduction to nutrition and dietetics. * Balanced diet, factors on which it depends. * Factors to be considered in planning. * Guides available for planning. * Food hygiene, preparation and preservation * Review of nutrients –micro and macro.	Lecture & Discussion Explain Using chart Panel Discussion	Written Test; Objective and Essay Type.
II	8Hrs	8	Describe & plan various therapeutic diet for different conditions	Introduction to diet therapy * Routine hospital diets * Therapeutic diet under each unit i.e. cardiovascular diseased, Gastrointestinal diseases, Renal disorders, endocrine and metabolic disorders, allergy, infections and fevers, pre and post operative stage, deficiency diseases and malnutrition, overweight and underweight.	Lecture & Discussion Explain Using chart	Written Test; Objective and Essay Type.

III	8Hrs	7	Describe and plan feeding of infant & children	Infant and child nutrition * Feeding of normal infants: factors to be considered in planning, nutritional requirements. * Feeding of premature infants: factors to be considered in planning, nutritional requirements. * Supplementary feeding of infants: Advantage and method of introduction. * Weaning, effects on mother and child * Psychology of infant and child feeding. * Feed the sick child. Diet in diseases of infancy and childhood. * Deficiency states – malnutrition and under nutrition. * Feeding pre-school child: nutritional needs, factors to be considered in planning diets. Problems in feeding. * School lunch programme: Advantages, Need in India.	Lecture & Discussion Explain with slide film show Demonstration of assessment of nutritional charts	Written Test; Objective and Essay Type.
IV	6Hrs		Describe various community nutrition programme Describe nutritional needs & diet plan for different age groups	Community Nutrition: Need for community nutrition programme. * Nutritional needs for special groups: infant, child, adolescent, pregnant woman, lactating mother and old people. * Substitutes for non-vegetarian foods. * Selection of cheap and nutritious foods. Nutrition education- needs and methods. * Methods of assessing nutritional status of individual/group/community. * Current nutritional problems and national programmes.	Lecture & Discussion Explain with slide film show Demonstration of assessment of nutritional charts	Written Test; Objective and Essay Type.

PRACTICUM

I. Methods of cooking and cookery rules.

1. Simple preparation of beverages, soups, cereals and pulses, eggs, vegetables, meat.
2. Menu Plans.

II. Preparation of supplementary food for infants

1. Food for toddlers.
2. Low cost nutritious dishes for vulnerable groups.
3. Dietary case study of patient on special diet and planning of low cost dietary instructions for home adaptations.
4. Planning of therapeutic diets.

DISTRIBUTION OF TYPE OF QUESTION AND MARKS FOR THE SUBJECT NUTRITION AND DIETETICS

Question No.	Question description	Division of marks	Total marks
1.	Total MCQs:- 5	5 x 1	5
2.	Long Answer Questions (LAQ) (Any1 out of 2)	1 x 10	10
3.	Short Notes (4 out of 6) a) b) c) d) e) f)	4x5	20

Note :

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 2 questions will be given out of which , 1 have to be answered.
3. Short Notes : 6 questions will be given out of which, 4 have to be answered.

BIOCHEMISTRY AND BIOPHYSICS

Placement: First Year

Time Allotted:

Section A (Biochemistry) – Theory 30 hrs.

Section B (Biophysics) - Theory 30 hrs.

Practical - 30 hrs

COURSE DESCRIPTION:

This course introduces the basic principles of biochemistry and biophysics related to nursing.

Objectives:

At the end of the course, the student will

1. Identify the basic principles of biochemistry and biophysics.
2. Synthesize the knowledge of these principles in various nursing situations.

Section A: (Biochemistry)

THEORY: -30 Hrs.

UNIT NO	HOURS	Learning Objective	COURSE CONTENTS	Teaching learning Activities	Assessment Method
I	2Hrs	Describe basic principles of biochemistry Describe the structure & functions of cell	Introduction : Importance of biochemistry in nursing * Study of cell and its various components.	Lecture, discussion, charts, slides Demonstration use of microscope	Written Test; Objective and Essay Type.
II	2Hrs	Describe the water & electrolyte balance of human body	Water and Electrolytes: Water sources, property and functions in human body. * Water and fluid balance. * Electrolytes of human body, functions, sources.	Lecture, discussion, Charts Slides Explain using charts, graph	Written Test; Objective and Essay Type.

III	5Hrs	Explain the mechanism of enzymes	Enzymes * Mechanism of action * Factors affecting enzyme activity * Diagnostic applications * Precautions for handling specimens for enzyme estimation * Digestion and absorption of carbohydrates, proteins and fats * Various factors influencing the digestion and absorption, malabsorption syndrome.	Lecture, discussion Slides Demonstration in laboratory	Written Test; Objective and Essay Type.
IV	5Hrs	Explain catabolism of carbohydrates Explain the storage and utilization of fats & glucose in the body	Carbohydrates: Catabolism of carbohydrates for energy purposes * Mitochondrial oxidation and phosphorylation. * Fats of glucose in the body. Storage of glucose in the body, glycogenesis, glycogenolysis and neoglucogenesis, blood glucose and its regulation. * Glucose tolerance test, hyperglycemia, hypoglycemia, glycemia.	Lecture, discussion Charts Slides Demonstration of laboratory tests	Written Test; Objective and Essay Type.
V	5Hrs	Explain the metabolism of amino acids & proteins	Protein : Amino acids, hormones. * Essential amino acids. Biosynthesis of protein in the cells * Role of nucleic acid in protein synthesis. * Nitrogenous constituents of urine, blood, their origin –urea cycle, uric acid formation, gout. * Plasma proteins and their functions.	Lecture, discussion Charts Slides Demonstration of laboratory tests	Written Test; Objective and Essay Type.

VI	6Hrs	Explain the metabolism of fat, import and export of lipids & their functions	Fat: Biosynthesis of fats and storage of fats in the body. * Role of liver in fat metabolism * Biological importance of important lipids and their functions * Cholesterol and lipoprotein * Sources, occurrence and distribution * Blood level and metabolism * Ketone bodies and utilization. * Inter-relationships in metabolism and cellular control of metabolic processes.	Lecture, discussion, explain using charts, graph	Written Test; Objective and Essay Type.
----	------	--	---	--	---

Section B: (Biophysics)**Theory : -30 Hrs**

UNIT NO	HOURS	Learning Objective	COURSE CONTENTS	Teaching learning Activities	Assessment Method
I	2Hrs	Basic principles of biophysics	Introduction :Concepts of unit and measurements. * Fundamental and derived units. * Units of length, weight, mass, time.	Lecture, discussion, chart slides	Written Test; Objective and Essay Type.
II	2Hrs	Describe the vector & scalar motion	Vector and scalar motion, speed, velocity and acceleration.	Lecture, & discussion	Written Test; Objective and Essay Type.
III	3Hrs	Describe the gravity & v its application in nursing	Gravity: Specific gravity, centre of gravity, principles of gravity. * Effect of gravitational forces on human body. * Application of principles of gravity in nursing.	Lecture, discussion, chart slides experiments	Written Test; Objective and Essay Type.
IV	3Hrs	Describe the force ,work & energy ,its principle& application in nursing	Force, work, Energy: Their units of measurement. * Type and transformation of energy, forces of the body, static forces. * Principles of machines, friction and body mechanics. * Simple mechanics – lever and body mechanics, pulley and traction, incline plane, screw. Application of these principles in nursing.	Lecture, discussion, charts, slides experiment s	Written Test; Objective and Essay Type.

V	3Hrs	Describe the heat ,its principle& application in nursing	Heat: Nature, measurement, transfer of heat * Effects of heat on matter * Relative humidity, specific heat * Temperature scales * Regulation of body temperature * Use of heat for sterilization * Application of these principles in nursing	Lecture, discussion Demonstration	Written Test; Objective and Essay Type.
VI	3Hrs	Describe the light ,its principle & applications in nursing	Light: Laws of reflection * Focusing elements of the eye, defective vision and its correction, use of lenses. * Relationship between energy, frequency and wavelength of light * Biological effects of light. * Use of light in therapy. * Application of these principles in Nursing.	Lecture, discussion Demonstration, carts slides	Written Test; Objective and Essay Type.
VII	3Hrs	Describe the pressure ,its principle & applications in nursing	Pressures: Atmospheric pressure, hydrostatic pressure, osmotic pressure. Measurements of pressures in the body * Arterial and venous blood pressures * Ocular pressure * Intracranial pressure * Applications of these principles in nursing.	Lecture, discussion demonstration charts ,slides	Written Test; Objective and Essay Type.

VIII	2Hrs	Describe the sound ,its principle & applications in nursing	Sound: Frequency, Velocity and intensity * Vocalization and hearing * Use of ultrasound. Noise pollution and its prevention * Application of these principles in nursing.	Lecture, discussion	Written Test; Objective and Essay Type.
IX	5Hrs	Describe the electricity & applications in human body	Electricity and Electromagnetism: Nature of electricity. Voltage, current, resistance and their units. * Flow of electricity in solids, electrolytes, gases and vacuum. * Electricity and human body. * ECG, EEG, EMG, ECT * Pace makers and defibrillation * Magnetism and electricity. * M.R.I Scanning, CAT Scan	Lecture, discussion, demonstration Supervised clinical practice	Written Test; Objective and Essay Type.
X	2Hrs	Describe the atomic energy. its structure, use & applications in nursing	Atomic Energy: Structure of Atom, Isotopes and Isobars. * Radioactivity: Use of radioactive isotopes. * Radiation protection units and limits, instruments used for detection of ionising radiation. X-rays.	Lecture, discussion charts	Written Test; Objective and Essay Type.
XI	2Hrs	Describe the principle of electronic & its applications in nursing	Principles of Electronics: Common electronic equipments used in patient care.	Lecture, discussion Supervised clinical practice	Written Test; Objective and Essay Type

Practicum:

Experiments and Tests should be demonstrated wherever applicable

DISTRIBUTION OF TYPE OF QUESTION AND MARKS FOR THE SUBJECT BIOCHEMISTRY AND BIOPHYSICS

QuestionNo	Question description	Division ofmarks	Total marks
1	Total MCQ's 15 Biochemistry 1- 7 Biophysics 11-15	7x 1=7 5 x 1=5	15
	SECTION - A Biochemistry (30 marks)		
2	Long Answer Questions (LAQ's) (any 1 out of 2)	1 x 10	10
3	Short Notes (Any 4 out 6) a) b) c) d) e) f)	4 x 5	20
	SECTION – B (BIOPHYSICS- 30 marks)		
4	Long Answer Questions (LAQ's) (any 1 out of 2)	1 x 10	10
5	Short Notes (Any 4 out 6) a) b) c) d) e) f)	4 x 5	20

No

- te :**
1. MCQ : Each MCQ carries 1 mark.
 2. Long Answer Questions :2 questions will be given out of which, 1 has to be answered in Biochemistry & Biophysics separately.
 3. Short Notes :6 questions will be given out of which,4 have to be answered in Biochemistry & Biophysics sep

PSYCHOLOGY

Placement :First Year

**Time Allotted: Theory -
60 hrs.
Practical-
15 hrs**

COURSE DESCRIPTION

This course is designed to reorient and widen the student's knowledge of fundamentals of psychology. The student is offered an opportunity to apply the theoretical concepts in the clinical setting and thereby understand the psychodynamics of patient behaviour. This course would also help the student to develop and insight into her own behaviour.

OBJECTIVES

At the end of the course, the student will

1. Apply psychological principles while performing nursing duties.
2. Distinguish the psychological processes during health and sickness.
3. Analyze own behaviour patterns.
4. Tabulate the psychological needs of the patients for planning nursing care.
5. Participate in psychometric assessment of the client.

UNIT NO	HOURS		Learning Objective	COURSE CONTENTS	Teaching learning Activities	Assessment Method
	T	P				
I	3Hrs		Describe the scope & methods of psychology	* Introduction: Definition of psychology, scope and methods of psychology. * Relationship with other subjects.	Lecture & Discussion	Written Test; Objective and Essay Type
II	6Hrs	5	Describe the sensation, at tension & distinguish between normal & abnormal Simple experiments Perception measuring thresholds Reaction time	* Sensation, Attention and perception: Definitions * Sensory processes: Normal and abnormal * Attention and distraction: Contributory factors * Characteristics of perception, perception: Normal and abnormal	Lecture & Discussion	Written Test; Objective and Essay Type

III	6Hrs		Describe motivation, its nature Describe Frustration and conflicts	* Motivation: Definition and nature of motivation * Biological and social motives * Frustration and conflicts * Self-actualization	Lecture & Discussion	Written Test; Objective and Essay Type
IV	5Hrs		Describe emotions & its application in sickness	* Emotions: Definition of emotions, expression and perception * Emotions in sickness	Lecture & Discussion	Written Test; Objective and Essay Type
V	7Hrs		Explain the concept of personality & its influence on behavior.	* Personality : Definition , constituents of personality * Personality in sickness and nursing	Lecture & Discussion	Written Test; Objective and Essay Type
VI	5Hrs		Describe psychological needs of various ages during their life cycle	* Psychological aspects of nursing * Behaviour and sickness. Psychological needs of Child and adolescents Adult Aged Attendants * Chronically ill individual	Lecture & Discussion Case Discussion	Written Test; Objective and Essay Type
VII	4Hrs		Describe significance of individual differences & its implications in nursing	* Individual differences * Significance of individual differences. * Heredity and environment * Role of individual differences both in health and sickness. * Implications of individual differences in nursing.	Lecture & Discussion Demonstration Practical sessions	Written Test; Objective and Essay Type
VIII	6Hrs		Describe intelligence & abilities during sickness	* Intelligence and Abilities: Definition * Intelligence and abilities during sickness * Measurement of intelligence and abilities.	Lecture & Discussion Demonstration	Assessment of Practice Written Test; Objective and Essay Type
IX	5H		Describe	* Learning: Definition, conditions of learning * Laws of learning * Learning during health and sickness.	Lecture & Discussion Demonstration	Assessment of Practice Written Test; Objective and Essay Type

X	5Hrs		Describe memory & forgetting Describe its application during health & sickness	* Memory and forgetting: Definition and nature of memory * Memory during health and sickness. * Forgetting during health and sickness	Lecture & Discussion Demonstration	Written Test; Objective and Essay Type
XI	5Hrs		Describe attitude & role of attitudes in health & sickness	* Attitudes: Definition, Development and modification * Role of attitudes in health and sickness.	Lecture & Discussion	Written Test; Objective and Essay Type
XII	3Hrs		Describe the characteristics of mentally healthy person Explain ego, defense mechanism	* Concept of mental hygiene and mental health * Characteristics of a mentally healthy person. * Defense mechanisms.	Lecture & Discussion	Written Test; Objective and Essay Type

PRACTICUM

1. Simple experiments of (i) perception (ii) measuring thresholds (iii) reaction time.
2. Administration of psychological tests
3. Observation and recording data: (i) field observation (ii) interview (iii) case study (iv) self-rating.

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 3 questions will be given out of it 2 have to be answered.

Short Notes : 10 questions will be given out of it 8 have to be answered

MICROBIOLOGY

PLACEMENT: FIRST YEAR

TIME ALLOTTED: Theory -60 hrs

Practical 30 hrs

COURSE DESCRIPTION

This course reorients the students to the fundamentals of Microbiology and its various sub-divisions. It provides opportunities to gain skill in handling and use of microscope for identifying various micro-organisms. It also provides opportunities for safe handling of materials containing harmful bacteria and methods of destroying microorganisms.

OBJECTIVES

At the end of the course, the student will

1. Identify common disease producing micro-organisms.
2. Explain the basic principles of microbiology and their significance in health and disease.
3. Demonstrate skill in handling specimens.
4. Explain various methods of disinfection and sterilization.
5. Identify the role of the nurse in hospital infection control system.

UNIT NO	HOURS		Learning Objective	COURSE CONTENTS	Teaching learning Activities	Assessment Method
	T	P				
I	5	5	Describe the structure, classification morphology & motility of microbes	* Structure and classification of microbes * Morphological types * Size and form of bacteria * Motility. * Classification of Micro-organisms. Practical: * Use and care of microscope. * Common examination :Smear, blood, moulds, yeasts.	Lecture, discussion Demonstration	Written Test; Objective and Essay Type.
II	5	5	Identify common disease producing micro-organisms Describe & discuss different laboratory methods to diagnose bacterial diseases	* Identification of Micro-organisms * Discussion of laboratory methods * Diagnosis of bacterial diseases. Practical: * Staining techniques- gram staining, acid fast staining. * Hanging drop preparation.	Lecture, discussion Demonstration	Written Test; Objective and Essay Type.

III	5	5	Describe the growth & nutrition of microbes	* Growth and Nutrition of Microbes * Temperature * Moisture * Blood Practical: * Preparation of Media and culture techniques. * Collection, handling and transportation of various specimens.	Lecture, discussion Demonstration	Written Test; Objective and Essay Type.
IV	10	2	Describe the methods of infection control Identify the different disease producing micro-organisms	* Destruction of Micro-organisms. * Sterilization and disinfection * Chemotherapy and antibiotics * Effects of heat and cold * Hospital infection control procedure and role of nurses. Practical: Sterilization methods – physical, chemical and mechanical	Lecture, discussion Demonstrations	Written Test; Objective and Essay Type.

V	12	4	Describe the different diseases producing microorganiss	* Disease producing micro-organisms * Gram positive bacilli * Tuberculosis and Leprosy * Anaerobes * Cocci * Spirochaete * Rickettsiae Practical: Identification and study of the following bacteria: Streptococci, pneumococci and Staphylococci, Corynebacteria, Spirochetes and gonococci. Enteric bacteria. Posting in infection control department.	Lecture, discussion, Demonstrations Clinical practice	Written Test; Objective and Essay Type.
VI	5		Describe pathogenic fungi, dermatophytes&mycoti cinfections & its laboratory diagnosis	* Pathogeni cFungi * Dermatophytes * Systemi cmycotic infection * Laboratory diagnosis of mycotic infection	Lecture, discussion, Demonstrations Clinica l practic e	Written Test; Objective and Essay Type.

VII	8	5	Explain the concept of immunity & hypersensitivity & immunization in diseases	* Immunity * Immunity and hypersensitivity –Skin test * Antigen and antibody reaction * Immunization in disease. Practical: Demonstration of serological methods	Lecture, discussion Clinical practice	Written Test; Objective and Essay Type.
VIII	8	4	Describe parasites & vectors, protozoal infections, helminthes & its diagnosis & disease transmission	* Parasites and vectors. * Characteristics and classification of parasites * Protozoal infection including amoebiasis * Helminthes infection * Diagnosis of parasitic infection * Vectors and diseases transmitted by them. Practical: Identification of Parasites and Vectors.	Lecture, discussion Clinical practice	Written Test; Objective and Essay Type.
IX	5		Describe & classify different viruses Explain the causes of diseases by viruses & there control	* Viruses. * Classification and general character of viruses * Diseases caused by viruses in man and animal and their control.	Lecture, discussion Clinical practice	Written Test; Objective and Essay Type.

X	5		Explain food born infections & food poisoning	* Micro-organisms transmitted through food. * Food poisoning. Food borne infections.	Lecture, discussion Clinical practice	Written Test; Objective and Essay Type.
---	---	--	---	---	--	---

Practicum

Each student will practice in the laboratory as indicated in each unit of the courses outline. While giving nursing care in the wards they will practice collection and processing of specimens, prevention and control of hospital infections, sterilization, immunization, chemotherapy and maintenance of personal and environmental hygiene. Observation visit to incinerator, Posting in CSSD and infection control department.

MATERNAL NURSING

Placement :First Year

Time Allotted :Theory -

60 hrs

Practical -

240 hrs

COURSE DESCRIPTION

This course is designed to widen the student's knowledge of obstetrics during pregnancy, labour and puerperium. It also helps to acquire knowledge and develop skill in rendering optimum nursing care to a child bearing mother in a hospital or community and help in the management of common gynecological problems.

OBJECTIVES

At end of the course, the student will

1. Describe the physiology of pregnancy, labour and puerperium.
2. Manage normal pregnancy, labour and puerperium.
3. Explain the physiology of lactation and advice on management of breast feeding.
4. Be skilled in providing pre and post-operative nursing care in obstetric conditions.
5. Identify and manage high risk pregnancy including appropriate referrals.
6. Propagate the concept and motivate acceptance of family planning methods.
7. Teach, guide and supervise auxiliary midwifery personnel.

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	TEACHING LEARNING ACTIVITIES	ASSESSMENT
I	5hrs	Describe the concept of maternal nursing Explain the magnitude of maternal morbidity & mortality rates Describe the legislations related to maternity benefits, MTP act & family planning	* Introduction and historical review * Planned parenthoo d * Maternal morbidity and mortality rates * Legislations related to maternity benefits, MTP acts, incentives for family planning etc.,	Lecture & Discussion Assessment of skills with check list	Written Test; Objective and Essay Type.
II	6hrs	Describe the anatomy & physiology of female reproductive system Explain foetal development	* Review of the anatomy and physiology of female reproductive system. * Female pelvis (normal and contracted) * Review of foetal development.	Lecture & Discussion Explain using models Chart sides Specimen record book	Written Test; Objective and Essay Type
III	8hrs	Describe the physiology & management of pregnancy, labour & puerperium Perform neonatal resuscitation Recognise & manage common neonatal problems	Physiology and management of pregnancy, labour and puerperium Signs and symptoms and diagnosis of pregnancy * Antenatal care * Pregnant women with HIV/AIDS * Management of common gynaecological problems.	Lecture & Discussion Demonstration Charts slides Assessment of skills with check list	Written Test; Objective and Essay Type.

IV	6hrs	Describe essential newborn care Describe the management of high risk newborn	* The New born baby * Care of the baby at birth including resuscitation * Essential Newborn Care * Feeding * Jaundice and infection * Small and large for date babies * Intensive care of the new born * Trauma and haemorrhage.	Lecture & Discussion Demonstration Charts slides Assessment of skills with check list
V	5hrs	Describe management of abnormal pregnancy labour&puerperiu Identify & manage high risk pregnancy &puerperium	* Management of abnormal pregnancy, labour and puerperium * Abortion, ectopic pregnancy and vesicular mole. * Pregnancy induced hypertension, gestational diabetes, anaemia, heart disease. * Urinary infections, Antepartum hemorrhage * Abnormal labour (malposition and malpresentation) * Uterine inertia * Disorders or puerperium * Management of engorged breast, cracked nipples, breast abscess and mastitis	Lecture & Discussion Demonstration Charts slides Assessment of skills with check list

			Puerperal sepsis Post partum haemorrhage Inversion and prolapse of uterus, obstetrical emergencies Obstetrical operations i.e. forceps, vacuum, episiotomy, caesarean section.		
VI	10hrs	Explain effect of drugs during pregnancy, labour & puerperium on mother & baby	* Drugs in obstetrics * Effects of drugs during pregnancy, labour and puerperium on mother and baby.	Lecture & Discussion Drug book	Written Test; Objective and Essay Type.
VII	3hrs	Explain the concept of national family welfare programs for women & national family welfare program	* National Welfare programmes for women * National Family welfare programme * Infertile family * Problems associated with unwanted pregnancy * Unwed mothers.	Lecture & Discussion nChart slides	Written Test; Objective and Essay Type.

PRACTICUM

The students will

- Be posted in antenatal clinic, antenatal ward, labour room, postnatal ward, maternity OT, MTP room.
- Visit welfare agencies for women and write observation report.
- Follow nursing process in providing care to 3-6 patients.
- Write at least two nursing care studies and do a presentation

- e. Give at least one planned health teaching to a group of mothers.
- 2. Practice following nursing procedures.
 - a. Antenatal and post natal examination, per vaginal exam.
 - b. Conduct normal delivery, stitching of episiotomy, (For male candidates minimum conduct of 5 deliveries)
 - c. Motivation of family for adopting family planning methods.
 - d. Motivate family for planned parenthood.
 - e. Assist in various diagnostic and therapeutic procedures including IUD insertion and removal.

CHILD HEALTH NURSING

Placement :First Year

Time Allotted :Theory -60 hrs

Practical - 240 hrs

COURSE DESCRIPTION

This course is aimed at developing an understanding of the modern approach to child care, the common health problems of children and neonates in health and sickness.

OBJECTIVES

At the end of the course, the student will

1. Explain the modern concept of child care and the principles of child health nursing.
2. Describe the normal growth and development of children at different ages.
3. Manage sick as well as healthy neonates and children.
4. Identity various aspects of preventive pediatric nursing and apply them in providing nursing care to children in hospital and community.

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	Teaching Learning Methods	Evaluation
I	8Hrs	Describe the historical development philosophy & principles in nursing	Introduction * Modern concept of child care * Internationally accepted rights of the child * National policy and legislations in relation to child health and welfare. * National programmes related to child health and welfare. * Changing trends in hospital care, preventive, promotive and curative aspects of child health. * Child morbidity and mortality rates. * Differences between an adult and child. * Hospital environment for a sick	Lecture, discussion, Demonstration of common pediatric procedure Assessment of skills with checklist	Written Test; Objective and Essay Type.

			child. * The role of a paediatric nursing in caring for a hospitalized child * Principles of pre and post operative care of infants and children. * Paediatric nursing procedures.		
II	12Hrs	Describe the normal growth & development of children at different ages Identify the needs of children at different ages & provide parental guidance	The healthy child * Growth and development from birth to adolescence * The needs of normal children through the stages of development and parental guidance. * Nutritional needs of children and infants breast-feeding, supplementary/artificial feeding and weaning. * Accidents, causes and prevention * Value of play and selection of play material * Preventive immunization.	Lecture, discussion, Demonstrations Developmental study of infant and children Observation on study of normal and sick child	Written Test; Objective and Essay Type.
III	4Hrs	Provide care to normal & low birth baby Perform neonatal resuscitation recognize and manage common neonatal problems	Nursing care of a neonate * Nursing care of a normal newborn * Neonatal resuscitation * Nursing management of a low birth weight baby. * Nursing management of common neonatal disorders. * Organization of neonatal unit. Prevention of infections in the nursery.	Lecture, discussion, Demonstrations Workshop on neonatal resuscitation Demonstration Practice Assessment of skills with check list	Written Test; Objective and Essay Type.
IV	32Hrs	Provide nursing care in common childhood diseases Identify measures to prevent common childhood	Nursing management in common childhood diseases * Nutritional disorders and infections * Respiratory disorders and infections * Gastrointestinal infections, infestations and congenital disorders. * Cardio vascular problem-congenital defects and rheumatic	Lecture, discussion, Demonstrations Practice session Clinical practice	Written Test; Objective and Essay Type.

		diseases including immunization	fever. * Genito-urinary disorder – Nephrotic syndrome, wilms’ tumor, infection and congenital disorders. * Neurological infections and disorders-convulsions, epilepsy, meningitis, hydrocephalus, spinabifida. * Hematological disorders – aAnemias thalassemia, ITP, Leukemia, hemophilia. * Endocrine disorders – Juvenile diabetes mellitus. * Orthopedic disorders – club feet, hip dislocation and fracture. * Disorders of skin, eye and ears. * Common communicable diseases in children, their identification, nursing management in hospital and home and prevention. * Paediatric emergencies – poisoning, foreign bodies, haemorrhage, burns and drowning.		
V	4Hrs	Manage the child with behavioral & social problem	Management of behaviour disorders in children. * Management of challenged children: * Mentally challenged * Physically challenged * Socially challenged	Lecture, discussion, Demonstrations Field visit to the child guidance clinics, school for mentally physically & socially challenged	Written Test; Objective and Essay Type.

PRACTICUM

The student will:-

1. Be posted in paediatric medical and surgical ward, OPD in hospital, health centre and neonatal unit.
2. Visit a centre for handicapped children and child welfare centre and write observation report.
3. Write an observation study of normal children of various age groups in home/nursery school/ crèche.
4. Follow nursing process in providing care to 3-6 children.
5. Write at least two nursing care studies and do a presentation.
6. Give two planned health teachings, one in hospital and one in OPD/health centre.
7. Practice the following nursing procedures:
 - Taking pediatric history.
 - Physical assessment of children.
 - Baby bath.
 - Feeding
 - Restraining
 - Calculation of dosage of drugs and administration of medications and injections.
 - Collection of specimens.
 - Enema, bowel wash, colostomy irrigation.
 - Steam and Oxygen inhalation
 - Preparation to assist with diagnostic tests and operations.
 - Examination/Assessment of a newborn
 - Neonatal resuscitation
 - Care of a baby in incubator and on ventilator
 - Photo therapy
 - Assist in exchange transfusion and other therapeutic procedures.

MEDICAL SURGICAL NURSING

**Placement: First Year
hrs**

Time Allotted: Theory – 90

Practical - 270 hrs

COURSE DESCRIPTION

The purpose of this course is to widen the student's knowledge and develop proficiency in caring for patients with medical surgical problems. This course includes review of relevant anatomy and physiology, pathophysiology in medical- surgical disorders and the nursing management of these conditions.

OBJECTIVES

At the end of the course, the student will

1. Explain relevant Anatomy and Physiology of various systems of the body.
2. Explain pathophysiology of various disorders.
3. Explain the actions, side effects and nursing implications in administering drugs for various disorders.
4. Discuss the recent advancement in the treatment and care of patients with medical surgical conditions.
5. Develop skill in giving comprehensive nursing care to patients following the steps of nursing process.
6. Assist the patients and their families in identifying and meeting their own health needs.
7. Appreciate the role of the nurse in the medical surgical health team.

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	Teaching Learning Methods	Evaluation
I	4Hrs	Explain the roles of a nurse in patient care	* Introduction to medical surgical nursing. * Review of concepts of comprehensive nursing care in medical surgical conditions. * Nurse, patient and his/her family. * Functions of nurse in the outpatient department. * Intensive care unit.	Lecture, discussion charts, graphs, models, films and slides	Written Test; Objective and Essay Type.
II	10Hrs	Describe the common signs & symptoms of patients suffering with minor illness	* Nursing management of patient with specific problems. * Fluid and electrolyte imbalance. * Dyspnea and cough, respiratory obstruction * Fever * Shock * Unconsciousness * Pain * Acute illness * Incontinence	Lecture, discussion charts, graphs, models, films and slides Demonstrations Practice sessions Case discussion Seminar	Written Test; Objective and Essay Type.

III	8Hrs	Describe the etiology ,pathophysiology clinical manifestations ,diagnostic measures and nursing management of patients with neurological disorders	Nursing management of patient with neurological and neurosurgical conditions. Review of anatomy and physiology of the nervous system. Pathophysiology, diagnostic procedures and management of: * Cerebro-vascular accident. * Cranial, spinal and peripheral neuropathies. * Head-ache and intractable pain * Epilepsy * Infectious and inflammatory diseases and trauma of the nervous system. * Common disorders of the system. * Recent advances in diagnostic and treatment modalities. * Drugs used in these disorders. * Tumors of brain and spinal cord, congenital malformations, degenerative diseases.	Lecture, discussion, Demonstrations Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
-----	------	--	--	---	---

IV	8Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adults including elderly with disorders of blood and cardiovascular problems	Nursing management of patient with cardiovascular problems. Review of relevant anatomy and physiology of cardiovascular system. Pathophysiology, diagnostic procedures and management of * Ischemic heart diseases. * Cardiac arrhythmias . * Congestive heart failure. * Rheumatic and other valvular heart diseases. * Endocarditis, cardiomyopathies, congenital heart diseases, hypertension, heart block. * Cardiac emergencies: cardiac arrest, acute pulmonary oedema, cardiac tamponade, cardiogenic shock, aneurysms and peripheral vascular disorders, recent advancement in cardiology.	Lecture, discussion, Demonstrations Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
----	------	---	---	--	---

V	6Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of respiratory system common medical surgical nursing procedures	Nursing management of patient with respiratory problems. Review of anatomy and physiology of respiratory system, pathophysiology, diagnostic procedures and management of upper respiratory tract infections. * Bronchitis * Asthma * Emphysema, empyema, Atelectasis, COPD * Bronchiectasis * Pneumonia * Pulmonary tuberculosis * Lung abscess * Pleural effusion * Tumours and Cysts * Chest injuries * Respiratory arrest and insufficiency * Pulmonary embolism * Drugs used in the management of these patients. * Special respiratory therapies.	Lecture, discussion, Demonstrations Chart graphs films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation Exposure to procedure -x-ray -MRI -Endoscopy	Written Test; Objective and Essay Type.
---	------	---	---	---	---

VI	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of genitourinary system	Nursing management of patient with genitor-urinary problems. Review of anatomy and physiology of the genitor-urinary system * Nephritis * Renal Calculus * Acute renal failure * Chronic renal failure * End stage renal disease Special procedures, dialysis, renal transplant Drugs used in management of these patients Congenital disorders, urinary infections, Benign prostate hypertrophy.	Lecture, discussion, Demonstrations Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
----	------	--	---	--	---

VII	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of digestive system	Nursing management of patients with problems of the digestive systems. Review of anatomy and physiology of gastrointestinal system and accessory organs. Pathophysiology, diagnostic procedures and management of * G.I. Bleeding * Peptic ulcer * Infections * Acute abdomen * Colitis, diarrhea, dysentery and mal-absorption syndrome. * Cholecystitis * Hepatitis, hepatic coma and cirrhosis of liver. * Portal hypertension * Pancreatitis * Tumors, hernias, fistulas, fissures, hemorrhoids. Drugs used in the management of these patients.	Lecture, discussion, Demonstration Explain using charts, graphs and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
-----	------	--	---	--	---

VIII	10Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of endocrine system	Nursing management of patients with endocrine problems Review of anatomy and physiology and pathophysiology of patients with * Thyroid disorders * Diabetes mellitus * Diabetes insipidus * Adrenal tumour * Pituitary disorders * Diagnostic procedures Nursing management of patient with above problems. Drugs used in endocrine problems.	Lecture, discussion, Demonstration Explain using charts, graphs, models, films and slides Case discussion/seminar Practice sessions Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
IX	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of musculoskeletal system	Nursing management of patients with musculoskeletal problems. Review of anatomy and physiology and pathophysiology * Arthritis, osteomyelitis, bursitis, * Fractures, dislocation and trauma * Prolapsed disc * Osteomalacia and osteoporosis	Lecture, discussion, Demonstration Explain using charts, graphs, models, films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	

			* Tumor * Amputation Diagnostic procedures Nursing management of patients with above problems. Prosthesis and rehabilitation. Transplant and replacement surgeries.		
X	3Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of patients with oncology	* Nursing management of patients with disorders of female reproductive tract. * Disorder of menstruation * Infections of the genital tract * Benign and malignant tumors of the genital tract * R.V.F., V.V.F * Climacteric changes and associated problems.	Lecture, discussion, Demonstrations Explain using charts, graphs, models, films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
XI	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with burns reconstructive and cosmetic surgery	Nursing management of patients with oncological disorders. Types of neoplasms and related pathophysiology Diagnostic procedures Modalities of treatment and nurse's role	Lecture, discussion, Demonstrations Explain using charts, graphs, models, films and slides Case discussion/seminar Health education	Written Test; Objective and Essay Type.

			Special therapies – Chemotherapy and radiotherapy	Supervised clinical practice	
			Preventive measures, other therapies.	Drug book presentation	
XII	3Hrs	Describe the etiology , pathophysiology clinical manifestations , diagnostic measures and nursing management of patients with adult including elderly with disorder of immunological system	* Nursing management of patient with burns. * Nursing management of patient with reconstructive surgeries.	Lecture, discussion, Demonstrations Explain using charts, graphs models, films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
XIII	5Hrs	Describe the etiology , pathophysiology clinical manifestations , diagnostic measures and nursing management of patients with adult including elderly with disorder of communicable diseases	Nursing management of patients with common communicable diseases and STD'S Nursing management of patient with immunological disorders including HIV/AIDS	Lecture, discussion, Demonstrations Explain using charts, graphs models, films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.

XIV	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of ear, nose and throat	Nursing management of patients with diseases of eye, ear, nose, throat and skin.	Lecture, discussion, Demonstration Explain using charts, graphs, models, films and slides Case discussion/seminar Health education Supervised clinical practice Drug book presentation	Written Test; Objective and Essay Type.
XV	5Hrs	Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures and nursing management of patients with adult including elderly with disorder of blood	Nursing management of patients with blood disorders Review of anatomy and physiology of blood and blood products. Patho-physiology, diagnostic procedures and management of blood disorders * Anemia * Leukemia * Bleeding disorders * Hemophilia * Purpura etc. Blood transfusion, safety checks, procedure and requirements, management of adverse transfusion,	Lecture, discussion ,	Written Test; Objective and Essay Type.

			reaction, records for blood transfusion. Management and counseling of blood donors, phlebotomy procedure, and post donation management. Blood bank functioning and hospital transfusion committee Bio-safety and waste management in relation to blood transfusion.		
XVI	3Hrs	Explain the role of a nurse in nursing emergencies	* Nursing in emergencies . * Cardiac emergencies * Trauma * Poisoning * Crisis management: Thyroid crisis, Hypertensive crisis, adrenal crisis.	Lecture, discussion	Written Test; Objective and Essay Type.

PRACTICUM

Students should be rotated in the selected medical and surgical areas, like cardio thoracic, neurology, urology, orthopedics, Gynecology, Oncology, burns and Reconstructive surgical units.

The students should be given patient assignment. They have to practice patient centered comprehensive nursing.

Each student is required to give planned health teachings, conduct clinical teaching, case presentation and drug study.

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 3 questions will be given out of which , 2 have to be answered.
3. Short Notes : 10 questions will be given out of which, 8 have to be answered

ENGLISH

Placement: First Year Time

Allotted: Theory -60 hrs

COURSE DESCRIPTION

This course is designed to help the student understand and usage of English language required for their professional work.

OBJECTIVES

After the course the students will develop

1. Ability to speak and write grammatically correct English
2. Effective skill in reading and understanding the English language
3. Skill in reporting

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	Teaching Learning Methods	Evaluation
I	15Hrs	Learn & understand English grammar, develop vocabulary Explain the steps & research process	Remedial study of grammar * Review of grammar, vocabulary and effective use of dictionary * Prepare task oriented seminars. * Symposia and panel discussion.	Demonstrate use of dictionary Class room conversion Exercise on use of grammar Practice in public school	Written Test; Objective and Essay Type.
II	10Hrs	Develops ability in reading & speaking correct English	The ability to understand selected passage and express meaning in one's own words. Reading and comprehension of the prescribed books.	Exercise on reading Summarizing comprehension	Written Test; Objective and Essay Type.

III	20Hrs	Develops effective skills in reading & understanding English language	The study of various forms of composition * Note taking * Diary * Nurses notes, anecdotal records * Writing of summary * Nurses reports on health problems * The student will submit one sample of each item from her own practical experience.	Exercise on writing Letter writing Precise Dairy Anal to be health problem Story writing Resume writing Essay writing Discussion on written report documents	Written Test; Objective and Essay Type.
IV	15Hrs	Develop skills in communications & implement it in day to day practical experience	Verbal communication * Oral reports * Summarization of discussion * Debate * Listening comprehension –Film, Cassette and Radio.	Exercise on debating Participating in seminar Panel symposium Telephone	Written Test; Objective and Essay Type.

PRACTICUM

The clinical experience in the wards and bed side nursing will provide opportunity for students to fulfill the objectives of learning language.

Assignment on writing and conversation through participation in discussion, debates, seminars and symposia. The students will gain further skills in task oriented communication.

DISTRIBUTION OF TYPE OF QUESTION AND MARKS
FOR THE SUBJECT ENGLISH

Question No.	Question description	Division of marks	Total marks
1.	MCQs	15 x 1	15
2.	Long Answer Questions (LAQ) (Any2 out of 3)	2 x 10	20
3.	Short Notes (8 out of 10) a) b) c) d) e) f) g) h) i) j)	8x5	40
	Total Marks		75

Note :

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 3 question will be given out of which, 2 has to be answered.
Bitwise questions may be asked.
3. Short Notes : 10 questions will be given out of it 8 has to be answered.

SOCIOLOGY

Placement: Second Year Time

Allotted :Theory -60 hrs

COURSE DESCRIPTION

This course it reorient students to sociology related to community and social institution in India and its relationship with health, illness and nursing.

OBJECTIVES

At the end of the course, the student will

1. Describe sociological concepts that are applicable to nursing.
2. Determine role of sociology in nursing as related to social institutions in India
3. Develop positive attitudes towards individual, family and community.

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	TEACHING LEARNING ACTIVITIES	ASSESSMENT
I	1	Describe the importance of sociology in Nursing	Introduction Importance of study of sociology in nursing, relationship of anthropology, sociology, etc.	Chalk board power point Transparency	Essay type Short answers
II	3	Describe the inter - relationship of individual in society and community	Individual and the society * Socialization * Interdependence of the individual and society * Personal disorganization.	Chalk board power point Transparency	Essay type Short answers Assignment
III	3	Describe the influence of culture and on health and disease	Culture * Nature of culture * Evolution of culture * Diversity and uniformity of culture	Chalk board power point Transparency	Essay type Short answers Assignment

IV	4	Identify various social groups and Their interactions	Social organization * Social groups, crowds and public groups, nations, race. * Social institutions: The family marriage, education, religion, arts, economic organization, political organization. * The urban and rural community in India: Ecology, characteristics of the village, characteristics of the town and city. * Social stratification: Class and caste.	Chalk board power point Transparency	Essay type Short answers Assignment
V	6	Explain the Social process	Social process *process of social interaction : competition, conflict war, cooperation, accommodation, and assimilation.	Chalk board power point Transparency	Essay type Short answers Assessment of report on community Identification

COMMUNITY HEALTH NURSING

Placement: Second Year Time

Allotted: Theory – 60hrs

Practical -240 hrs

COURSE DESCRIPTION

The course enables the students to understand the national health care delivery system and to participate in the delivery of community health nursing.

OBJECTIVES

At the end of the course, the student will

1. Explain the concept of various factors contributing to health of individual, family and community.
2. Identify the role of community health nurse.
3. Describe national health care delivery system.
4. Describe epidemiological methods and principles of prevention and control of illness in the community.
5. Identify the role of personnel working in the community health set up.
6. Plan the work of community health nurse and supervise and train health workers.

UNIT NO	HOURS	Learning Objective	COURSE CONTENT	TEACHING LEARNING ACTIVITIES	ASSESSMENT
I	6	Describe the Concepts of community health nursing	Introduction * Introduction to community health –Concepts, Principles and elements of primary health care. * Introduction to community health nursing. * Concepts of community health nursing –community nursing process. * Objectives, scope and principles of community health nursing.	Chalk board power point Transparency	Essay type Short answers
II	8	Describe the Family health services	Family health services * Concept, objectives, scope and principles. * Individual family and community as a unit of service * Principles and techniques of home visiting * Establishing working relationship with the family.	Chalk board power point Transparency	Essay type Short answers Assignment

			* Working with families in relation to prevention of disease, promotion of health. * Care of the sick in the home, physically handicapped and mentally challenged. * Surveillance and monitoring		
III	10	Describe the Organisation and administration of health services in India.	Organisation and administration of health services in India. * National health policy * Health care delivery system in India * Health team concept * Centre, State, district, urban health services, rural health services * System of medicines * Centrally sponsored health schemes * Role of voluntary health organizations and international health agencies * Role of health personnel in the community * Public health legislation.	Chalk board power point Transparency	Essay type Short answers Assignment
IV	8	Explain health education its aims concepts and scope	Health Education * Aims concepts and scope of the health education * National plan for health education * Communication techniques * Methods and media for health education programmes * Planning for health education and role of nurse	Chalk board power point Transparency	Essay type Short answers Assignment
V	8	Explain the Role of the community health nurse.	Role of the community health nurse. * National health programmes * Maternal and child health programmes * Family welfare and school health services * Occupational health services. * As a member of the health team.	Chalk board power point Transparency	Essay type Short answers Assessment of report on community Identification

VI	10	Describe Epidemiology	Epidemiology * Definition-concepts, aims, objectives, methods, principles * Epidemiology – Theories and models * Application of Epidemiology, principles and concepts in community health.	Chalk board power point Transparency	Essay type Short answers
VII	10	Explains the Bio statistics and vital statistics	Bio statistics and vital statistics * Introduction, definition and scope, legislation * Report, recording and compiling of vital statistics at the local, state, national and international level. * Definitions and methods of computing vital statistics * Methods of presenting data * Management information system.	Chalk board power point	Essay type Short answers Assignment

PRACTICUM

Each student will prepare a community profile.

The students will be allotted families for gaining experience in identifying family health needs, health counseling and guidance and family budgeting for optimum health.

The students will participate in the activities of primary health centre, Sub-centre, MCH Centre.

Visits will be made to selected health and welfare agencies, water purification plant and sewage disposal plant, infectious disease hospital.

Conduct health educational programmes for individual/groups/community.

I	4	Defines the research definition	A.INTRODUCTION TO RESEARCH METHODOLOGY * Steps of scientific methods. * Definition of research * Need for nursing research * Characteristics of good research. Research process.	• Chalkboard • Transparenc y	➤ Assignments ➤ Unit tests, ➤ Objectives ➤ Type

II	4	Discuss the Definition or research terms and Review of literature.	Statement of research problem * Statement of purpose and objectives * Definition or research terms * Review of literature.	• Chalkboard • Transparenc y • Power Point	➤ Assignments ➤ Short Answers ➤ Objectives ➤ Type
III	4	Discuss Research approaches	Research approaches:- historical, survey and experimental	• Chalkboard • Transparenc y • Power Point	➤ Essay type ➤ Short Answers ➤ Objectives ➤ Type
IV	4	Enlist various Sampling techniques and methods of data collection	Sampling techniques and methods of data collection. * Sampling * Instruments-Questionnaire. Interview * Observation schedule, records, measurements * Reliability and validity or instruments.	• Chalkboard • Transparenc y	➤ Assignments ➤ Objectives ➤ Type
V	4	Explain the Analysis of Data	Analysis of Data: Tabulation * Classification and summarization * Presentation * Interpretation of data	• Chalkboard • Transparenc y • Power Point Charts	➤ Assignments ➤ Unit tests, ➤ Essay type ➤ Short Answers
VI	4	Discuss the Communic ation of research findings	Communication of research findings * Writing Report: * Organizing materials for writing * Format of the report * Use of computers	• Chalkboard • Transparenc y	➤ Assignments ➤ Unit tests, ➤ Objectives Type
VII	8	Discuss the Measures of central tendency	B.INTRODUCTION TO STATISTICS * Descriptive Statistics. * Frequency Distribution –Types of measure – frequencies, class	• Chalkboard • Transparenc y	➤ Assignments ➤ Unit tests, ➤ Essay type

			interval, graphic methods of describing frequency. * Measures of central tendency – Mode, Median and mean. * Measures of variability : Range, standard deviation * Introduction to normal probability.	• Power Point Charts	➤ Short Answers ➤ Objectives ➤ Type
VIII	4	Discuss Correlation .	Correlation * Computation by rank difference methods * Uses of correlation co-efficient	• Chalkboard • Transparency	➤ Assignments ➤ Objectives ➤ Type
IX	4	Discuss Biostatistics	Biostatistics: Crude rates and standardized rates, ratio and estimation of the trends.	• Chalkboard • Transparency • Power Point	➤ Assignments ➤ Unit tests, ➤ Essay type
X	6	Explain the Introduction to computers in nursing	Introduction to computers in nursing * Introduction to computers and disk-operating system. * Introduction to word processing * Introduction to data base * Windows applications, word, excel, power point, multimedia. * Use of statistical packages. * Introduction to internet & use of electronic mail * Computer aided teaching and testing.	• Chalkboard • Transparency • Power Point	➤ Assignments ➤ Unit tests, ➤ Essay type

PRACTICUM

Students will conduct research project in small groups in selected areas of nursing and submit a report(Group studies may include studying of existing health practices, improved practices of nursing (procedures) health records, patient records and survey on nursing literature)

DISTRIBUTION OF TYPE OF QUESTION AND MARKS FOR THE SUBJECT INTRODUCTION TO NURSING RESEARCH AND STATISTICS

Question No.	Question description	Division of marks	Total marks
1.	Total MCQs:- 10	10 x 1	10
2.	Long Answer Questions (LAQ) (Any 2 out of 3)	2 x 10	20
3.	Short Notes (4 out of 6) a) b) c) d) e) f)	4x5	20

Note :

1. MCQ : Each MCQ carries 1 mark.
2. Long Answer Questions : 3 questions will be given out of which , 2 have to be answered in Nursing Research.
3. Short Notes : 6 questions will be given out of which, 4 have to be answered.

Annexure – II

Scope & Career Opportunities

A Post Basic B.Sc. Nursing degree enhances the professional qualifications of registered nurses and opens opportunities in clinical practice, education, administration, research, and public health sectors.

Clinical Nursing Careers

- Staff Nurse
- Senior Staff Nurse
- Ward In-Charge
- Nursing Officer
- Clinical Instructor
- Infection Control Nurse
- Critical Care Nurse
- Emergency and Trauma Nurse
- Operation Theatre Nurse
- Community Health Nurse
- Occupational Health Nurse

Government Sector Opportunities

Graduates can apply for nursing positions in:

- Indian Railways Hospitals
- Employees' State Insurance Corporation Hospitals
- Armed Forces Medical Services
- Central and State Government Hospitals
- Public Health Departments
- Municipal Health Services
- Primary Health Centres (PHCs) and Community Health Centres (CHCs)

Teaching and Academic Careers

- Clinical Instructor
- Nursing Tutor
- Demonstrator in Nursing Colleges
- Skills Laboratory Instructor
- Academic Coordinator

Further qualifications such as M.Sc. Nursing may be required for higher teaching positions.

Hospital Administration and Management

- Nursing Supervisor
- Nursing Superintendent
- Assistant Nursing Superintendent
- Quality Assurance Coordinator
- Hospital Administrator

- Patient Care Manager
-

Public Health and Community Services

- Community Health Officer (CHO)
- Public Health Nurse
- School Health Nurse
- Health Educator
- Program Coordinator in Health Projects
- NGO Health Consultant

Research and Development

- Research Assistant
- Clinical Research Coordinator
- Clinical Trial Nurse
- Data Collection Officer
- Research Associate in Healthcare Projects
